Tetra Goldfish Weekend

Call for Price: 011 826 5887

Description

Compact sticks for feeding goldfish and other coldwater fish while you are away during the weekend

- The sticks are extremely stable and do not crumble
- Will not pollute or cloud the water, as is the case with other foods
- Contains all essential nutrients and vitamins for a healthy and long life of your fish, allowing a longer period of time without a keeper
- Does not affect the water quality
