

Aquadine Pond Algae Block 20g

Price: R60.00

Description

The Aquadine Pond Algae Block 20g is an efficient and easy-to-use solution for managing algae in garden ponds or Aquariums. Designed to suppress unwanted green water and string algae, this block works by slowly dissolving and releasing active agents to clear the water. Ideal for ornamental ponds, koi ponds and aquariums, it's safe for fish when used as directed. For optimal results, reduce sunlight exposure and manage nutrient levels in your pond.
