

Red Full Moon White Rim Betta

Call for Price: 011 826 5887

Description

The Red Full Moon White Rim Betta is a truly eye-catching ornamental fish, known for its brilliant deep red body and perfectly rounded full-moon tail edged in striking white. This contrast gives it a bold, dramatic appearance ideal for display tanks. The flowing fins and balanced form make it a standout among betta varieties.

Feed a varied diet of high-quality betta pellets, frozen bloodworms, daphnia, or brine shrimp. Adding occasional supplements like garlic-based immune boosters or Azoo Discus Vitamins can help maintain vibrant coloration and health. Best kept solo. While they can survive without heaters, maintaining consistent warmth—especially during South African winters—is vital for their health and activity.
