Description
The Samurai Plakat Half-Moon Betta is a bold and powerful variety known for its short fins and dramatic half-moon tail spread. Its unique “Samurai” coloration features deep black bodies layered with striking metallic red, silver, or copper scaling—giving it a regal, armored appearance. This betta’s compact build and aggressive flair make it a favorite among collectors. Best kept solo.

While they can tolerate cooler water and live in tanks without heaters, the very cold winters in South Africa can be tough on them. Providing a heater during colder months helps maintain stable, warmer water temperatures — leading to healthier and happier fish.

Bettas thrive on a high-protein diet. Feed them quality betta pellets, frozen foods like bloodworms, daphnia, and brine shrimp to support vibrant color and overall health.

Adding supplements like Seachem Garlic Guard and Azoo Discus Vitamins to your betta’s diet can help boost immunity, improve appetite, and keep your fish in peak condition. These extras, combined with a balanced high-protein diet, go a long way in supporting your betta’s overall health and vibrancy.
