Short Description
Chips for rasping Ancistrus and plecos

Description
sera Catfish Chips is the staple food consisting of carefully manufactured Chips for rasping and suckermouth bottom fish such as Ancistrus and plecos.

The balanced composition with a high amount of ballast substances (from willow bark fibers and alder cones, among others) supports healthy digestion and development.

The chips sink quickly and become smooth in water but keep their shape for at least 24 hours, and thus allow the mainly nocturnal catfish eating slowly, which meets their natural feeding habits, without polluting the water.

Ingredients
fish meal, corn starch, wheat flour, wheat germ, brewers yeast, spirulina, milk powder, fish oil (containing 49% omega fatty acids), herbs, whole egg powder, willow bark (0.5%), alder cones (0.5%), stinging nettle, alfalfa, mannan oligosaccharides (0.4%), parsley, sea algae, paprika, spinach, carrots, green-lipped mussel, Haematococcus algae, garlic.

Analytical constituents
Crude Protein 34.2%, Crude Fat 6.9%, Crude Fiber 6.2%, Moisture 4.2%, Crude Ash 6.5%.

Additives
Vitamins and provitamins: Vit. A 30,000 IU/kg, Vit. D3 1,500 IU/kg, Vit. E (D, L-?-tocopheryl acetate) 60 mg/kg, Vit. B1 30 mg/kg, Vit. B2 90 mg/kg, stab. Vit. C (L-ascorbyl monophosphate) 550 mg/kg.
