Short Description
Staple food for smaller carnivorous cichlids

Description
sera Granured is the staple food consisting of carefully manufactured granules for smaller mainly carnivorous cichlids and omnivores.

Due to its high protein amount and valuable fats, which are rich in omega fatty acids, as well as the high percentage of Krill (with many minerals, trace elements and carotenoids) the granules are particularly tasty, have an excellent digestibility and support healthy development and coloration. The slowly sinking granules keep their shape very well and do not pollute the water.

Ingredients
fish meal (26%), corn starch, wheat gluten, wheat flour, wheat germ, krill (2%), fish oil (containing 49% omega fatty acids), gammarus, mannan oligosaccharides (0.4%), brewers yeast, spirulina, green-lipped mussel, Haematococcus algae, garlic.

Analytical constituents
Crude Protein 46.5%, Crude Fat 8.2%, Crude Fiber 3.3%, Moisture 5.0%, Crude Ash 5.3%.

Additives
Vitamins and provitamins: Vit. A 30,000 IU/kg, Vit. D3 1,500 IU/kg, Vit. E (D, L-?-tocopheryl acetate) 60 mg/kg, Vit. B1 30 mg/kg, Vit. B2 90 mg/kg, stab. Vit. C (L-ascorbyl monophosphate) 550 mg/kg.

Contains EC permitted colorants.
