Sera pH Test Kit

Availability: Out Of Stock
Call for Price: 011 826 5887

Description

Makes it easy to monitor the pH value in fresh and marine water and ponds. For approx. 100 measurements.

In case of too low pH values we recommend sera KH/pH plus (in fresh and marine water aquariums) or sera minus or filtering through sera super peat. In case of too high values in fresh water aquariums we recommend sera pH
