Description
Phalacronotus apogon is a species of catfishof the genus Phalacronotus found in Southeast Asia. This fish is common in the murky waters of large rivers in the basins of the Mekong and Chao Phraya, as well as in Peninsular Malaysia, Sumatra and Borneo

Chevey's Sheetfish is a rare and elegant freshwater oddball known for its flattened, blade-like body and smooth gliding motion. Native to Southeast Asia. Typically peaceful but predatory, it should be housed with similarly sized fish. A unique addition for experienced aquarists looking to add rare character to their tanks..

Subject to change depending on availability.
