

Spanner Barb

Call for Price: 011 826 5887

Description

The Spanner Barb (*Barbodes lateristriga*), also known as the T-Barb or T-Bar Puntius, is a hardy and eye-catching freshwater fish, named after the dark “X” or spanner-shaped marking across its body.

-Scientific Name: *Barbodes lateristriga*

-Common Names: Spanner Barb, T-Barb

-Best Kept: In small schools (4/5+ fish)

-Omnivorous: Accepts flakes, pellets, and frozen/live food

-Loves: Bloodworms & brine shrimp

Found in rivers and streams across Malaysia, Thailand, and Indonesia particularly in shaded, forested waters.
