Thrive Coral plugs

Availability: Out Of Stock
Call for Price: 011 826 5887

Description
Thrive's take on the common coral plug is anything but common.

The design process took a range of different ideas and combined them into the Thrive coral plugs.

Plugs are designed to organize and trade, so we added a hole to tag them. In the end, we roughed up the top, and we ensured water flow to the base of the corals by creating a dome top
