Aquadine Triple A Block 20g Ammonia Acid Preventative

Availability: 10

Price: R65.00

Description

Aquadine Triple A Block is a compact yet powerful solution designed to reduce and prevent ammonia build-up and acidic conditions in freshwater aquariums. This 20g block slowly dissolves, treating 120 liters of water (20 liters per Block). Ideal for new tank setups or ongoing maintenance, it helps neutralize harmful compounds, keeping your fish healthy and your water crystal clear. Suitable for tropical and coldwater tanks.
