The Zetlight Aqua ZA1201-AI WiFi Marine LED is the perfect lighting solution for modern reef aquariums. Designed with smart technology and powerful output, this 22-watt LED unit features 4 dedicated color channels: White (12000K), Blue (405–465nm), Red (620–630nm), and Green (520–535nm) — offering full-spectrum lighting ideal for coral growth and vibrant aquatic displays.

With 10 customizable presets and smooth transition effects, it delivers both functionality and aesthetics. Easily controlled via Bluetooth and WiFi through the dedicated app, this light allows you to fine-tune intensity, timing, and color modes effortlessly.

Perfect for nano reef tanks, the ZA1201-AI covers aquariums up to 50 x 50 cm, making it an excellent choice for hobbyists seeking both control and performance in a compact design.
