Sun Sun Internal Filter HJ111B

Availability: 10

Price: R150.00

Short Description
200L/H

Description
The Sun Sun HJ111B internal submersible filter helps eradicate and control free floating debris and harmful waste in aquarium water in both fresh and saltwater.

The Sun Sun HJ111B mechanically filters the water and cleaned by the included filter sponges.

200 L/H

The HJ111B is quiet and efficient & comes equipped with an optional spray bar for a wide range of water output, or you can use the traditional venture airpipe for a stronger concentrated water flow enhanced with oxygen.

The HJ111B Sun Sun Internal Filter is easy to install.

The Sun Sun HJ111B Internal Filter is recommended for a 12inch tank or smaller.
