

Flipper Float Aquarium Magent Cleaner Nano 6mm

Price: R895.00

Description

Flipper's patented design creates the only 2 in 1 aquarium cleaner that can FLIP from scrubber to scraper simply by rotating the handle. Complete cleaning without ever getting your hands wet! It is the only aquarium cleaner you will ever need! Its unique design almost completely eliminates the possibility of trapping sand particles! With an ultra-low profile, Flipper is the only dual scrubber / scraper design on the market, it is a major time-saver for daily cleaning. That's why the Flipper has quickly become a "must-have" cleaning tool for advanced hobbyists and maintenance professionals!

The Flipper Cleaner by Flipper Cleaner is an efficient glass cleaning tool that conveniently scrubs and scrapes the walls of your tank. A simple "flip" allows for you to switch from scrubbing your tank's glass to scraping stubborn stains and tricky corners

The Flipper Nano can be used on glass and acrylic tanks up to 6mm (1/4?) in thickness.
