

Chihiros WRGB II Slim LED 120

Price: R4,510.00

Description

The Chihiros WRGB II Slim is an LED system series, which serves the complete colour range of aquatic plants with its optimised design of RGB LEDs and lets the colours in the aquarium shine especially vividly.

The Chihiros – WRGB II Slim is also remarkable for its particular stability. At a relatively low power consumption

The Chihiros WRGB II Slim light-system is programmed via the “My Chihiros App” directly and does not need an additional commander. The app offers individual control over the three colour channels “R” (red), “G” (green) and “B” (blue), as well as individually programmable daily phases. Sunrise and sunset can be imitated, too. Additionally, Chihiros has installed various presets that can highlight certain types of plants with special colour settings. With the chihiros wrgb ii slim series, there is no need for an external timer because all schedules can be saved as desired.

Is Chihiros WRGB 2 waterproof?

No. The light can handle minor slashes, but it is not waterproof.

Case colour: black.

What is WRGB aquarium light?

Each letter represents a colour. In this case the W means white, R is for red, G for green and B for Blue.
