

Seachem Garlic Guard 250ml

Price: R243.00

Short Description

Concentrated garlic supplement Enhances appetite Increases resistance to parasites Also contains Vitamin C, a strong anti-oxidant. 250ml

Description

Seachem GarlicGuard is an all natural garlic scented odor and flavor enhancer for freshwater and saltwater fish. Our research has shown that many fish are attracted to natural odors, such as garlic. Simply mix Seachem GarlicGuard with any food item, to attract the interest of finicky eaters, e.g. discus and marine angelfish. Seachem GarlicGuard is safe for reef and planted aquariums.

Garlic can be of great assistance in controlling parasites. It has a history of being able to help eliminate parasites and control secondary fungal infections; detoxify and gently stimulate elimination. It also has antioxidant properties to protect against oxidation caused by parasites' toxins.

Size- 250ml
