

Seachem NutriDiet Betta 30g

Price: R120.00

Short Description

Contains only the highest quality ingredients like krill and fish meal. Broad spectrum of all the important components needed in a Betta's diet.

Description

Seachem NutriDiet Betta contains only the highest quality ingredients (Chlorella algae & fish meal) without low nutritional value fillers (e.g. corn meal). It contains a broad spectrum of all the important components needed in a Betta's diet: protein, fat, carbohydrates, vitamins and minerals. Seachem NutriDiet Betta is different from other foods on the market because of its high nutritional value and palatability. Seachem NutriDiet Betta also contains probiotics, which reduce waste, benefit nutrient uptake and support the immune system.

Sizes: 30 g
