Seachem Liquid Neutral Regulator 250ml

Availability: 2

Price: R255.00

Short Description
Adjusts pH to neutral (pH 7.0) from either a low or high pH. Softens water by precipitating calcium and magnesium. Removes chlorine, chloramine, or ammonia. 250ml

Description
Seachem Liquid Neutral Regulator adjusts pH to neutral (pH 7.0) from either a low or high pH and maintains it there. It softens water by precipitating calcium and magnesium while removing any chlorine, chloramine, and detoxifying ammonia. The use of Seachem Liquid Neutral Regulator makes other conditioning unnecessary.

Size - 250ml
