Seachem Reef Fusion 1 1L

Availability: 1

Price: R471.00

Short Description
Provides 100,000 mg/L of ionic calcium. Restores and maintains alkalinity. Most concentrated two part system; simple 1:1 ratio. 1L

Description
Seachem Reef Fusion 1 & Seachem Reef Fusion 2 are the foundation of a system formulated to provide the essentials for the reef aquarium. Seachem Reef Fusion 1provides calcium, while Reef Seachem Fusion 2 provides alkalinity. When used together, the Seachem Reef Fusion system will maintain calcium and alkalinity levels.

Seachem Reef Fusion 1

Seachem Reef Fusion 1 provides not only 100,000 mg/L of ionic calcium, but also includes biologically appropriate levels of magnesium, strontium, boron, iron, manganese, and molybdenum.

Seachem Reef Fusion 2

Seachem Reef Fusion 2 contains a mixture of carbonates and bicarbonates at an alkalinity of 4400 meq/L. It is designed to restore and maintain alkalinity in the reef aquarium and provide calcareous species with the essential carbonate needed for growth.

When used as directed, Seachem Reef Fusion 1 and Seachem Reef Fusion 2 will maintain the critical levels of calcium and alkalinity necessary for healthy coral growth, while providing biologically appropriate levels of other elements and trace minerals.
