Price: R791.00

Description
HAILEA HX Series Pumps

The HAILEA HX Series Pumps are designed for both freshwater and saltwater use, featuring a high aluminum ceramic shaft for enhanced durability and performance. Crafted with premium ABS original particles, the case ensures long-lasting reliability.

These versatile pumps are ideal for water draining,wave making, filtration, and fountain applications. Whether submerged or positioned above the water, the HAILEA HX Series Pumps provide powerful and efficient water movement.

Equipped with a strong suction cup, these pumps are firmly fixed in place, offering a secure, non-slip operation that ensures the pump stays intact, even under heavy use.

HX-6520:

1400 L/PH

1.6m

18.5w

Do not let the pump run dry. If the pump runs dry it will burn out. Do not cut the wire.
