Bio Elite Heal All 250ml

Availability: 3

Price: R375.00

Short Description
Size : 250ml

Description
Bio Elite Heal All is formulated as a general treatment for fish made from natural ingredients. Over-dosage is virtually impossible, and fish may be treated in the main tank, reducing further stress, netting wounds and secondary infections.

Treats bacterial, fungal and viral infections

Kills parasites

Treatment can be used in the tank/pond

Over-dosage is virtually impossible

Relieves skin irritation

Retards bleeding

Increases cellular repair

Boosts the immune system

Does not affect the nitrifying bacteria

Contains no harmful chemicals.

Bio Elite Heal All contains Aloe Ferox & herbal extracts that are antibacterial, fungal and viral. Bio Elite Heal All also helps in the elimination of parasites such as "Ich".

The infected fish can be treated in the main tank or in a hospital tank as the nitrifying bacteria are not affected by the treatment. If the affected fish is treated in a hospital tank, then it is best to treat the main tank for a few days to increase the remaining fish's resistance to the disease. The treatment should be given for at least seven days to ensure that the infectious organism is eliminated especially when treating for parasites. The duration may vary depending on the life cycle of the organism. For example "Ich" requires treatment for 14 days as the life cycle of the parasite is of this duration. This will guarantee the complete elimination of the disease.

Bio Elite Heal All is completely safe to use with plants, shrimp, stingrays, coral, marine aquariums, Clown Loaches, Hifin Pangauis & any other sensitive animals.
