

Seachem Axolotl Buffer 250ml

Price: R220.00

Short Description

Adjusts pH to 7.4–7.6.

Description

The ideal water pH for Axolotls is 7.4-7.6. Seachem Axolotl Buffer adjusts pH to 7.4–7.6 from either a low or high pH. It softens water by precipitating calcium and magnesium. Safe and effective for use with all Axolotls. Use Seachem Axolotl Conditioner for removal of chlorine and chloramine and detoxifying ammonia.

Size: 250ml
