Aquavitro Shrimp GH 150ml

Availability: 2

Price: R236.00

Short Description

Adds a complete spectrum of minerals to the shrimp aquarium. Restores & maintains general hardness (GH).

Description

Aquavitro Shrimp GH adds a complete spectrum of minerals to the shrimp aquarium. It takes into consideration both the mineral requirements of shrimp and the mineral content of their natural waters in order to create an optimal shrimp environment. Aquavitro shrimp GH adds calcium, magnesium, potassium, and iron as well as 6 trace minerals all in the correct biological ratio for shrimp.
