Availability: 2

Price: R270.00

Short Description
Removes chlorine and chloramines. Detoxifies ammonia, nitrite,and nitrate. Detoxifies heavy metals found in tap water.

Description
Aquavitro Shrimp Start is the complete conditioner for your freshwater shrimp aquarium. Aquavitro Shrimp Start removes chlorine, chloramine and ammonia. Aquavitro Shrimp Start converts ammonia into a safe, non-toxic form that is readily removed by the tank's biofilter. Aquavitro Shrimp Start may be used during tank cycling to alleviate ammonia/nitrate toxicity and allows the biofilter to more efficiently remove them. It will also detoxify heavy metals found in the tap water. Aquvitro Shrimp Start is non-acidic and will not impact pH. Use at start-up and whenever adding or replacing water.
