Description

Platinum Redtail Catfish a true showstopper for serious aquarists and exotic fish lovers, the Platnium Redtail Catfish is a rare and stunning variant of the traditional Redtail Catfish. With its vibrant platinum-white body and iconic red tail, this fish brings a dramatic and luxurious presence to any setup.

Known for its fast growth and striking appearance, the Platinum Redtail Catfish can grow up to 1.2 meters in captivity. They are a freshwater, bottom-dwelling predator.
