

Oase FiltoSmart Thermo 100 External Cannister Filter

Price: R3,898.00

Description

Oase FiltoSmart Thermo 100 External Cannister Filter

Power Consumption 11w

Power Consumption plus Heater 11w +100w

Flow Rate 600L/H

Filter Volume 1.3L

Pre Filter Volume 0.70L

Crystal-clear water thanks to the large filter surface with multi-stage mechanical/biological filtration.

Low power consumption and quiet operation.

Effective: Large filter surface in a compact size.

Automatic shut-off: No unwanted water leaks during filter cleaning.

Easy to open: Easy-click opening mechanism.

Economical: Quiet and energy-efficient pump with no disturbing noise.

Individually adjustable: Water flow rate can be adjusted at inlet and outlet adapter.

Optimum base: Safe and stable stand.

Includes connection set: Ready for installation and with practical self-venting function.

Please ensure the canister filter is properly primed before use. Failure to prime may result in damage to the motor.

Do not cut or modify any wires, as this will void the warranty and may cause malfunction.
