Price: R1,999.00

Short Description
Pipe Size - 12mm

Description
CHIHIIROS EXTERNAL INLINE HEATER PRO 10-1000w

The Chihiros Heater Pro is an external heater designed for tanks measuring 150–180 cm, with a water volume of 450–650 L. You can adjust the temperature using the My Chihiros app, which allows settings from 10°C to 35°C. The heater connects inline with a 16/22 mm fitting.

Designed with convenience in mind, the Chihiros Pro Heater can be easily controlled via the My Chihiros app, providing effortless temperature management from your smartphone. The heater’s modern, compact design blends seamlessly with your aquarium’s external filtration system, saving space and keeping your tank aesthetically clean by keeping the heater hidden out of sight.
