Price: R599.00

Description

Hikari PraziPro 118ml is a ready-to-use liquid solution designed to eliminate flukes, tapeworms, and internal parasites in aquarium fish. Formulated with premium-grade praziquantel, it offers a powerful and safe option for parasite control in both freshwater and saltwater aquariums.

- Highly effective against flukes, tapeworms, flatworms, and internal parasites

- Safe for use with all fish, invertebrates, and plants. Do not overdose.

- Won’t affect bio-filtration when used as directed

- Suitable for both quarantine and display tanks
