

Hygger High Efficiency AC/DC Battery Airpump HG067 18w

Price: R1,960.00

Description

Using the latest energy-saving technology, the portable air pump 10W/18W works more effectively, saving more energy. The shock-absorbing rubber feet and the upgraded motor helps, pump air ultra- quietly. Although the air pump size is big and powerful, it works quietly.

The Hygger HG067 AC/DC Battery Air Pump is the perfect solution for power outages. With dual power operation (AC & DC), this high-efficiency pump automatically switches to battery mode during blackouts. It delivers a strong and consistent airflow, keeping your fish safe and oxygenated at all times. Ideal for both freshwater and marine tanks, as well as bait buckets and transport.

- Dual AC/DC operation
- Automatically switches to battery during outages
- Powerful and energy efficient
- Low noise output
- Compact and portable design

- Ideal for emergencies, travel, or power failure protection

PRODUCT SPECIFICATIONS		
Volt./Freq	Input:AC 100-240V/50-60 HzOutput: DC 7.8V	
Power	10W	18W
Air flow	238GPH(15L/Min)	301GPH(19L/Min)
Pressure	0.015Mpa	0.024Mpa
Cord length	4.9FT/1.5M	
Recommended for breeding	Up to 40KG	Up to 80KG
Dimension	10.8x5.7x5.1inch(27.5x14.5x13cm)	
Working hours	≤8 Hours
