Price: R80.00

Description

Hikari Crab Cuisine is a high-quality, sinking pellet food formulated specifically for crustaceans like crabs, lobsters, and shrimp. Rich in calcium and essential nutrients, it promotes proper shell development and overall health. These pellets maintain water clarity and provide a complete diet that supports vibrant coloration and strong exoskeletons.

Ideal for both freshwater and marine species, Hikari Crab Cuisine ensures your invertebrates get the balanced nutrition they need to thrive.
