

Hygger Aquarium Magnet Cleaner Brush HG068 -L

Price: R820.00

Description

Hygger Aquarium Magnet Cleaner Brush

HG068 -L is a dual-sided magnetic cleaner that is designed for effortless algae removal and glass maintenance in large aquariums, offering a powerful cleaning solution without getting your hands wet.

Double-Sided Magnetic Design: Cleans both the inside and outside of your tank simultaneously using strong neodymium magnets for a firm, smooth glide.

Auto-Floating Brush: If detached, the inner scrubber floats to the surface for easy retrieval—no need to reach into the tank.

Detachable Scraper Blade: Includes a replaceable stainless steel blade for tackling stubborn algae and a plastic blade for gentler cleaning.

Scratch-Free Felt Pad: Exterior pad wipes away dust and water stains without damaging the glass. (Avoid sand

particles to prevent scratches.)

Ergonomic Grip: Comfortable handle ensures secure control, even with wet hands.

Dimensions - 4.9" × 3" × 1.5"

Glass Thickness Suitable for 5–12 mm glass.

Compatibility - Not recommended for acrylic tanks.

Rinse after each use to remove debris.

Store with a plastic sheet between magnets to prevent sticking.

Keep away from magnetic-sensitive items like watches or cards.
