

## Dymax Mini Vac

**Price: R174.00**

### Description

Dymax Mini Vac siphon is an aquarium siphon that makes nano aquarium maintenance hassle free. Just a few rapid shakes on the tube and water from the aquarium will start siphoning out. The delicate nozzle gently sucks fish waste and other debris from the aquarium gravel bed without having the gravel and fish being siphoned out.

Removes debris from aquarium

Self-start siphon

Adjustable flow rate

Quick and easy water change

Ideal for small aquariums
