Chihiros Mini CO2 Regulator Kit

Availability: 2

Price: R1,189.00

Description
Chihiros Mini CO? Regulator Kit

The Chihiros Mini CO? Regulator Kit is a compact, high-precision CO? system designed for nano and small planted aquariums. With its sleek build and reliable performance, it’s the perfect entry-level kit for aquascapers who want to promote healthy, vibrant plant growth with controlled CO? injection.

Compact & Minimal Design: Space-saving and stylish aluminum body — ideal for small setups and clean aquarium aesthetics

Precision Pressure Control: Built-in gauge ensures consistent and accurate CO? output for stable plant growth.

Easy Cartridge Connection: Compatible with standard 16g CO? cartridges (threaded type). Simply screw in and start diffusing.

Efficient Nano Diffuser: Includes a fine ceramic diffuser for optimal CO? dissolution and minimal bubble size.

Plug & Play Setup: Simple assembly and operation — perfect for beginners or smaller aquascapes.

Durable Components: High-quality stainless fittings, soft silicone airline tubing, and sturdy U-clip for secure hose placement.

What’s Inside:

Mini CO? Regulator × 1

16g CO? Cartridge × 3

Nano CO? Diffuser S × 1

U Clip M 8mm × 1

Air Hose × 1 m

Specifications:
