Chihiros LED-System Universal WRGB 600

Availability: 2

Price: R2,999.00

Description

The Chihiros LED System Universal WRGB is an advanced lighting solution for aquariums.

The WRGB lamps offer a complete spectrum for optimum plant growth and intensive colour rendering of the aquarium inhabitants.

Wireless control via the MyChihiros app makes the light smart. Sunrises, sunsets and breaks can be simulated based on a schedule. Presets and colour profiles can also be called up.

Thanks to the 4 possible mounting options, the lights can be flexibly adapted to numerous different aquarium types.

With Bluetooth connectivity and a user-friendly app, the Universal WRGB enables convenient control.

Ideal for freshwater and marine setups, it ensures optimal lighting conditions to promote the growth of healthy plants and vibrant aquatic life.

Power consumption - 29w

Luminous flux - 2,245 lm

Colour temeperatur - 3.000 to 15.000 K
