

Chihiros Solenoid Controller For CO2 Regulator

Price: R370.00

Description

Effortless CO₂ Management with Smart Control

The Chihiros CO₂ Regulator Solenoid Controller is designed to automate and simplify your aquarium's CO₂ injection process. By integrating seamlessly with the My Chihiros app via Bluetooth, this controller allows you to set precise CO₂ dosing schedules, eliminating the need for manual operation or external timers.

Compact and easy to install, the Chihiros Solenoid Controller is a must-have accessory for aquarists looking to improve efficiency and consistency in their CO₂ systems.
