Description

Hygger Small Fish Tank Cleaner Kit HG038 – 4-in-1 Aquarium Maintenance Tool for Aquariums

Keep Your Aquarium Crystal Clear

The hygger Small Fish Tank Cleaner Kit HG038 is a lightweight, multifunctional aquarium maintenance tool designed specifically for small aquariums. Featuring a durable ergonomic handle and four interchangeable cleaning attachments, this versatile kit makes routine aquarium maintenance simple, efficient, and hassle-free.

Whether you keep a betta aquarium, small planted tank, shrimp tank, nano aquascape, or desktop aquarium, this all-in-one cleaning kit provides the perfect solution for keeping your tank clean, healthy, and visually appealing.

Key Features

4 Interchangeable Cleaning Attachments

The HG038 cleaner kit includes four essential aquarium maintenance tools that can be quickly swapped using the convenient twist-lock attachment system.

Fish Net

Perfect for safely catching small fish, shrimp, or removing floating debris from the water surface.

- Net size: Approximately 9.9 cm (W) × 7.9 cm (H)

- Total reach: 34 cm

- Ideal for small tanks.

Cleaning Brush

Designed for scrubbing algae, dirt, and debris from aquarium decorations, rocks, driftwood, plants, and hard-to-reach surfaces.

- Brush head size: Approximately 3.3 cm (W) × 2 cm (H)

- Total reach: 28 cm

Flat Sponge Cleaner

Gently removes water spots, biofilm, and everyday residue from aquarium glass without scratching.

- Sponge size: Approximately 5.6 cm (W) × 4.7 cm (H)

- Total reach: 28 cm

Glass Scraper

Effectively removes stubborn algae growth and organic buildup from aquarium glass.

- Scraper width: Approximately 5.1 cm

- Total reach: 25.4 cm

- Ideal for tough algae removal

Lightweight Ergonomic Design

Constructed from high-density fibre material, the handle is lightweight, durable, rust-

resistant, and comfortable to use. The ergonomic non-slip grip provides excellent control, making maintenance easier in smaller aquariums where precision is essential.

Specially designed for compact aquariums and tight spaces, including:

- Betta Fish Tanks

- Shrimp Aquariums

- Nano Aquascapes

- Desktop Aquariums

- Small Tropical Fish Tanks

- Small Planted Tanks
