Seachem Algae Scraper 3 in 1 - 31cm

Availability: 2

Price: R624.00

Description

The Seachem Algae Scraper is designed with versatility in mind. With three retractable blades: metal, plastic, and soft pad, it is suited for both glass and acrylic aquariums. It is lightweight and features an ergonomic handle making it comfortable to hold in multiple positions. In addition, it floats for easy retrieval. Finally, its white color makes it easy to see the algae you want to remove and when you've effectively removed it.

Ergonomic handle allows for easy use in multiple positions

Retractable blade housing safely hides blade while not is use.

White design contrasts with algae so you can see what you are removing

Floats for easy retrieval

Handle hole for hanging storage

Select the cleaning surface suited to your aquarium material and algae type.

To switch between the metal blade and soft pad, slide the cartridge out of the scraper head, flip it, and re-insert it.

Use care around the gravel line, particularly in acrylic aquariums.

Retract the blade after use.

Metal blade: Tough algae on glass aquariums only. Do not use on acrylic.

Plastic blade: Glass and acrylic aquariums.

Soft pad: Acrylic aquariums and algae removal from scratches.

Can I use the Seachem Algae Scraper 3 in 1 on an acrylic aquarium?

Yes. Use the plastic blade or the soft pad on acrylic. The metal blade is not for use on acrylic.

Which blade should I use for stubborn algae on glass?

The metal blade is designed to remove tough algae from glass aquariums.

Size: 31cms
