Description
The Black Ruby Barb (Pethia nigrofasciata) is a stunning freshwater fish known for its vibrant ruby-red hues and dark black bars, especially prominent in mature males. Native to the clear, forested streams of Sri Lanka, this hardy species makes a perfect addition to aquariums. Their playful schooling behavior and vivid coloration make them a favorite among aquarists of all levels.

As active swimmers, they do best in groups of 4/6 or more to reduce stress and promote natural behavior.

- Maximum size: Around 6 cm

- Omnivorous diet – enjoys flakes, pellets, and live/frozen foods
