

ADA Power Sand Advanced L (6L)

Price: R1,355.00

Short Description

Porous volcanic stones secure the water circulation, and organic nutrients promote the growths of bacteria.

Description

Power Sand is base substrate material designed for providing nutrients to the roots of aquatic plants and promoting growth of substrate bacteria. Porous volcanic stones secure the water circulation, and organic nutrients promote the growths of bacteria. Please select right size, S, M, L according to the depth of aquarium tank.

This product has larger pebble sizea than the medium bags.
