Short Description

Subject to change depending on availability.

Description

Endemic to Lake Malawi. It occurs around Likoma Island and Mara Point, between Chiwindi and Lumbaulo, from Lumnessi to the Malawian border and down the coast of Malawi to Nekete. It will accept most foods offered. We suggest a varied diet composing live, frozen and dried foods with the addition of some vegetable matter in the form of spirulina flake or blanched spinach.

Placidochromis electra

Deepwater Hap
