Description

Tank breed African blockhead cichlids.
The lionhead cichlid (Steatocranus casuarius), also known as African blockhead, buffalohead,humphead cichlid, lionhead or lumphead is a species of rheophiliccichlid native to Pool Malebo and the Congo River.
The Buffalo Head Cichlid is also known as the Lionhead or Blockhead Cichlid, and originates within the Congo River basin, Africa. They inhabit the swift waters of the Congo River and have developed a very "jerky" style of swimming which is similar to a goby.
