

Deebow / Nubios CL-040 LED Clamp Light

Price: R360.00

Short Description

Super bright led, easy Installation and energy saving. 40cms

Description

The Deebow / Nubios CL-040 LED Clamp Light is a compact and energy-efficient lighting solution designed for freshwater aquariums. Featuring high-quality multi-spectrum LED diodes with 8000K white light, it delivers bright, natural illumination that enhances fish colour and supports healthy aquatic environments.

Its slim, modern design includes an adjustable clamp bracket for quick and easy installation on most aquarium rims. Operating on low voltage, this light is safe, reliable, and energy-saving, making it ideal for nano and small tanks.

A crystal glass splash guard provides protection from accidental splashes, while the open, non-waterproof design ensures efficient heat dissipation. Perfect for hobbyists looking for a stylish, practical lighting upgrade.
