Price: R1,550.00

Short Description
20kgs

Description
Create stunning aquascapes with Dragon Rock. Its unique, rugged texture and natural earthy tones make it a favorite among aquascaping enthusiasts. With its porous surface and intricate crevices, Dragon Rock not only adds dramatic visual appeal but also provides hiding spaces for shrimp and fish, enhancing their natural environment.

Perfect for creative hardscapes, Dragon Rock is aquarium-safe and ideal for both planted and freshwater tanks.

Please Note: Dragon Rock is sold as a mixed box of assorted pieces. Shapes and sizes vary naturally, and specific sizes or shapes are not guaranteed. We recommend rinsing the rocks thoroughly before placing them in your aquarium.
