

Dumbo Ear Rosetail Betta

Call for Price: 011 826 5887

Description

The Dumbo Ear Rose Tail Betta is a striking and graceful variety of *Betta splendens*, admired for its oversized pectoral fins (resembling elephant ears) and beautifully layered rose-like tail. This variant often features soft pastel or vibrant colours that shimmer as it glides through the water, making it a true centrepiece in any aquarium. Best kept solo. Feed high-quality betta pellets, along with treats like frozen bloodworms, brine shrimp, and daphnia. To boost health and colour, you can supplement their diet with garlic extract or betta vitamin additives like Azoo Discus Vitamins.

While they can survive without heaters, maintaining consistent warmth—especially during South African winters—is vital for their health and activity.
