

# Eheim Thermocontrol e 400w Heater

**Price: R1,730.00**

## Description

The Eheim Thermocontrol e 400W Heater is a high-performance electronic aquarium heater ideal for large tanks. It ensures consistent and precise temperature control for your tropical or freshwater aquarium. With a range from 20°C to 32°C and accurate to  $\pm 0.5^{\circ}\text{C}$ , it keeps your aquatic environment stable.

The coating made of special laboratory glass increases the heating surface, serves as a heat shield and ensures even heat emission. Trusted by aquarists worldwide, the Eheim Thermocontrol e is perfect for maintaining healthy, stress-free fish. Easy temperature adjustments make it safe and simple to use.

Do not cut the wire. Allow the heater to sit in the tank for 15 minutes before switching it on.

Rated for aquariums between 1,000L and 1,200L.

Diameter Ø: 36mm

Height: 496mm
