

Electric Blue Balloon Ram Cichlid

Call for Price: 011 826 5887

Description

The Electric Blue Balloon Ram or as it is also called the Electric Blue Angel Ram, is a selective bred variant of the Electric Blue Ram. Which is a color variant that has become very popular within the hobby

The Electric Blue Balloon Ram is known for its beautiful electric blue coloration.

The Electric Blue Balloon Ram is prized for its winning personality despite its fierce appearance. With its spiked dorsal fin, low-slung pectoral fins, *Mikrogeophagus ramirezi* appears to be an aquarium bulldog. However, this member of the Cichlidae family is actually one of the more social and peaceful freshwater fish

This fish comes from Venezuela and Columbia
