

Sun Sun Internal Filter HJ1152

Price: R430.00

Short Description

1200L/H

Description

The Sun Sun HJ1152 submersible internal filtration pumps help eradicate and control free floating debris and harmful waste in aquarium water in both fresh and saltwater.

Aquarium water is mechanically filtered and cleaned by the included filter sponges. The Sun Sun HJ1152 internal filter is quiet and efficient & comes equipped with an optional spray bar for a wide range of water output, or you can use the traditional venturi airpipe for a stronger concentrated water flow enhanced with oxygen. Sun Sun HJ1152 is easy to install.

The Sun Sun HJ1152 Internal filter is recommended for tanks 4foot and above.
