800L/H

Description
The HJ952 Sun Sun Internal submersible filter pump helps eradicate and control free floating debris and harmful waste in aquarium water in both fresh and saltwater. The Sun Sun HJ952 mechanically filters your water and cleaned by the included filter sponges. The Sun Sun HJ952 is quiet and efficient & comes equipped with an optional spray bar for a wide range of water output, or you can use the traditional venture airpipe for a stronger concentrated water flow enhanced with oxygen.The HJ952 Sun Sun Internal Filter is easy to install.

The Sun Sun HJ952 Internal Filter is recommended for 3foot and 4foots tanks.
