

Flagtail Prochilodus

Call for Price: 011 826 5887

Description

The Flagtail Prochilodus (*Prochilodus lineatus*) is a hardy, peaceful freshwater fish native to South America, commonly found in the Amazon and Orinoco basins. Known for its striking red and black-striped tail, it's a constant grazer. Prefers clean & well-oxygenated water.

*Diet: Omnivorous (algae wafers, spirulina, veggies, flakes)
