

# Pearl Gourami

**Call for Price:** 011 826 5887

## Description

The body is a brownish-silver colour, covered in a pearl-like pattern with a distinct black line running from the fish's head, and gradually thinning towards the caudal fin this fish has given rise to many popular names, such as the lace gourami and the mosaic gourami.

The pearl gourami is native to Thailand, Malaysia and Indonesia (where it is found on the islands of Sumatra, and Borneo).
